## ***Brand Concept***

Based on the people-oriented humanistic concept, MoDe creates an outdoor oasis for users to escape from the daily work and life stresses with excellent quality, function and design.

The outdoor space should be relaxing, joyful and a comfortable place. Experience the comfort, balance and tranquility of nature, and enjoy a better life with a healthier, more relaxed and elegant lifestyle. Our design philosophy is centered around this concept of comfort.

We use high quality materials chosen precisely for their ability to last for many years, thus also supporting our ambition to create sustainable solutions. From the design phase through production, our team strives to prepare the foundation for people to make their own moments.

## ***Product Line***

MoDe products range from hand woven outdoor rattan collections, textilene fabric collections, upholstered collections, fabric webbing collections, all-aluminum collections and teak wood collections, to include outdoor dining tables and chairs, sofas, lounge chairs, daybeds and accessory products.

We are always striving to source new and exciting materials for today and tomorrow's trends. Our development team is always conducting market research, and trend analysis to make sure we are on top of customer needs and demands. Being a part of an European brand we have the advantage of also looking at trends in other countries.

MoDe.

# Product Application

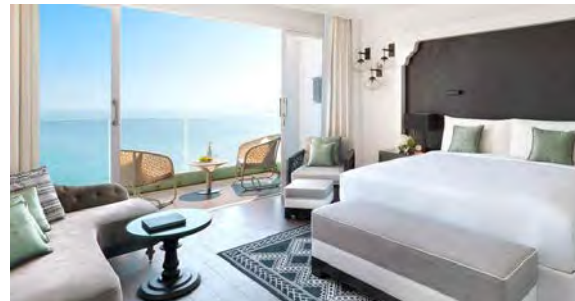

Boutique Hotel & Resort – Integrated with the hotel’s fashionable decorating style.

Private Villas & Conservatories – Blending and connecting with nature, outdoor furniture is the finishing touch in expanding garden spaces and manors.

Office Park – In the new era of the office environment, greenery is used more often in offices and creative parks, outdoor furniture is the perfect match for these spaces.

Outdoor Areas of Restaurants and Bars – Extension of dining environment.

Cruise Ship – Given the growing popularity of cruise tourism, the ship deck has become a new outdoor space to enjoy the sun and entertaining.

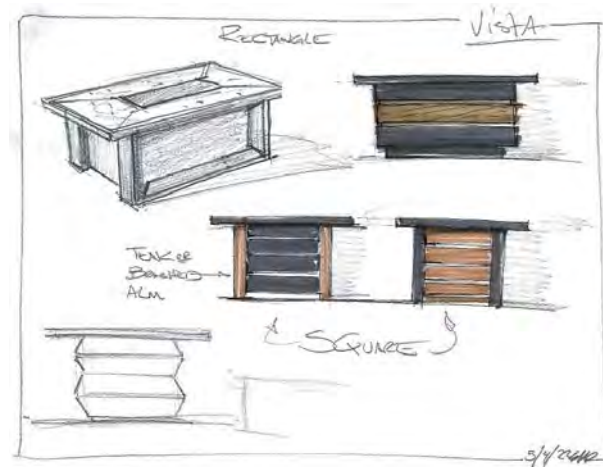

MoDe.

# The design and development team

MoDe has a great resource of inhouse and outsource professional designers. With their talent and experience, we cover all the details that an outdoor piece needs to be functional, ergonomic, high quality, but also with a high level of aesthetic.

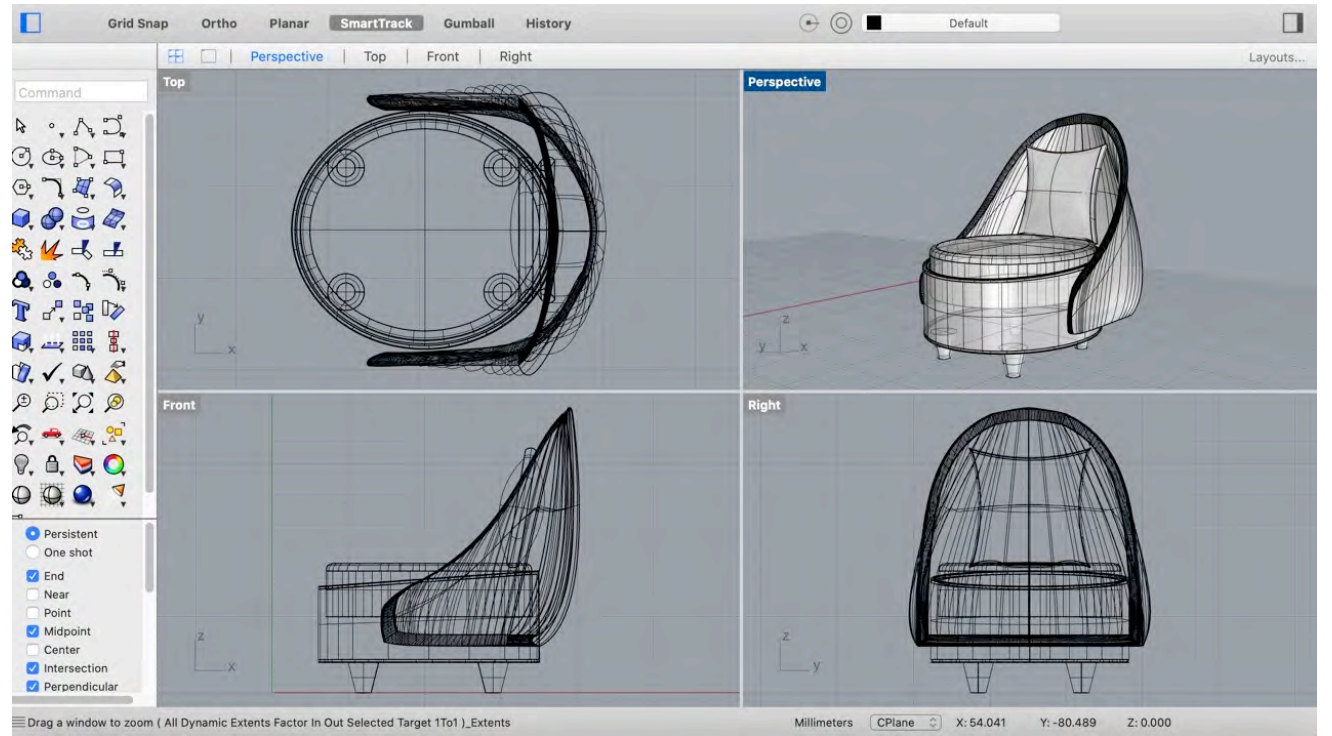

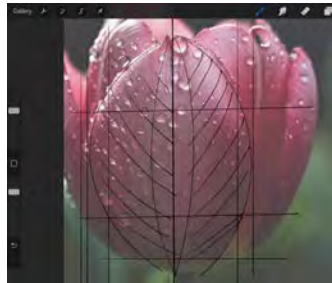

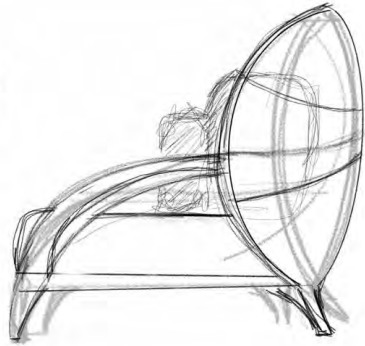

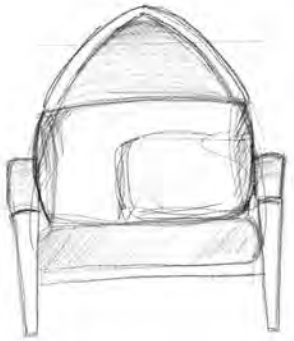

Also, we take research as a determining factor to create innovative pieces. Including testing, prototyping, and working on details; we warranty the success of a new outdoor furniture collection.

# Design Process within House Furniture Designers

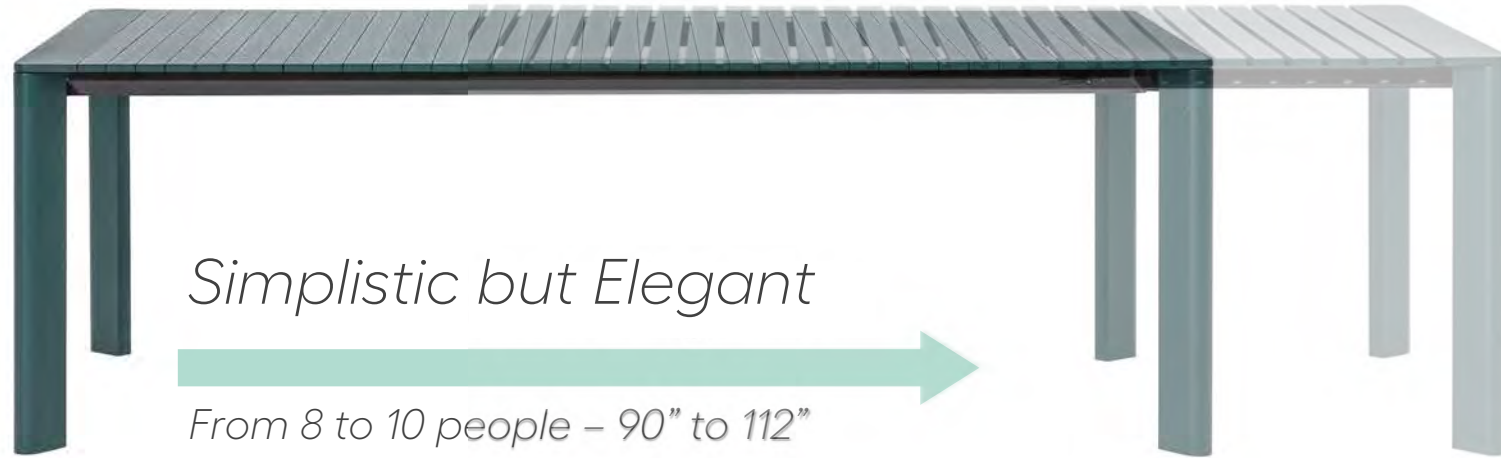

# From Concept to 3D Software.

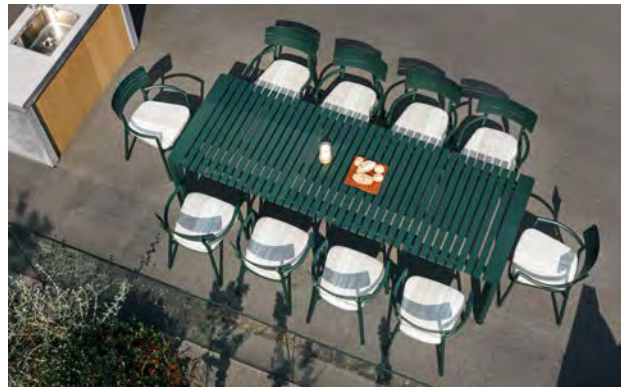

# *Innovative Patented Design*

*Detail Matters*

# Sustainability

MoDe is committed to use more recycled materials and reduce our overall carbon footprint.

50% of power energy comes from Solar panels. We target 90% by the end of 2025.

Our pillow fill is produced with 100% recycled plastics from the Ocean.

Our goal is to use only recycled materials for packaging by 2025 or materials that can be recycled.
